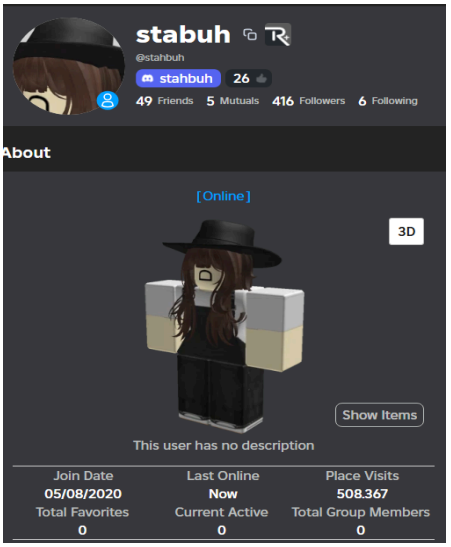
The Exposure Of Stabuh

(Or known as: *timorou/timorous, frozen, stabuh, precisedplayer, coperbuggie, michaeljacksonlover911, rockstar_freddy, frozenpizzaenjoyer, LunarBunny, Naiko (you get it)*

Recently the user “stabuh” has been outed for doing countless things, such as drawing porn out of people, being in general a weirdo + sexually harassing a girl.



Stabuh’s twitter and roblox account.

Stabuh was known previously as Rockstar_Freddy, who joined in 2014, was and still is a roblox developer and used to be friends with many people. Stabuh used to make morphs involving the series Bendy And The Ink Machine, which had been REAL popular around the 2017's to 2018's.
Stabuh had their own groups which were used as storage for their morph content, which still exist to this day.

Now, you may ask me: "but, do you have any proof involving stabuh's commitments?"
Yes, I do. I will tell my own case within stabuh, so bear with me.
Stabuh did a lot of things during these years, back in 2020-2021:
I met a person called Starshine, who I got into a relationship with after a certain time. (I deeply regret of)
Starshine wasn't one of the greatest to be with, they were one of the reasons that made a friend group of mine get into countless dramas and discussions.
In a certain period of those two years, Starshine was hated by this said friend group while I still kept being on their side. So stabuh in an attempt to make us breakup, made an animation out of us both (without our consent). Which was both of our avatars, mine sexually harassing Starshines.

Stabuh had made a group chat on discord involving me and a few other members of the previously mentioned friend group, and discussed it with me there. We talked about it and Stabuh sent this weird fucking animation to get me to change my mind about my current relationship with Starshine, getting me to break up with them, but I refused.

Later on I talked with Starshine about this and they sent me a screenshot of stabuh's showing a fully modeled penis they have made on roblox. That went unused in the final animation.
After this incident, I started knowing of another incident that had happened after this, now in 2022-2023

In 2022-2023, a user who sadly already got their nickname exposed to the public. Got in contact with stabuh and quickly became friends. But some day, they started knowing about lunar's mental porn addiction behavior and tried to get in contact with stabuh's parents to talk about it and see if they could do anything towards it.
In stabuh's own words:

> I apologize to zero and joody for drawing porn of both of you i drew porn of joody as a revenge act cause i was pissed at her for outing me for sexually harassing her and i wanted to get back at her for it and the only thing i could think of was drawing porn of her because it hurts people the most emotionally, when asking me why i did it before i'd always respond with "i dont know" thats because i didn't wanna say my reasoning cause it'd make me look stupid, i drew porn of zero just because i was a freak i wish i didn't do any of this it was all going fine everyone forgot about what i did and i was forgiven but no i just had to get my revenge apparently,

And the same thing happened to zero, both of them had porn drawings made by Lunar out of their respective OCS, which were sent by stabuh himself.
and according to Joody: "My birthday was on august 30th, they drew it on September 23rd of 2023, then I got the news that she drew porn out of on November"

^^
There will be more details regarding Joody's experience with Lunar down below.
And recently, stabuh who's was going by the name of "lunarbunny" a while ago, got a tweet of theirs viral, which consisted of a model they had made of their oc. The only difference and sole reason for its sudden acknowledgement throughout Twitter was that it had "jiggle physics", aka breasts.

< This is what i am referring to.
And according to some contacts of mine, there's a full fleshed model with nsfw options on them.
Down below will be a link to said model and something else I've had to record and upload, alongside lunar's own shitty confession of drawing porn out of other people. (The confession is brought up once more further down below).

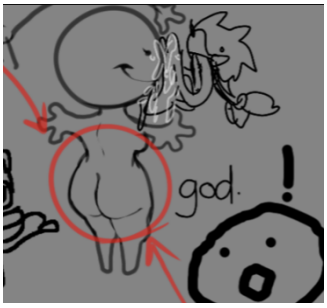
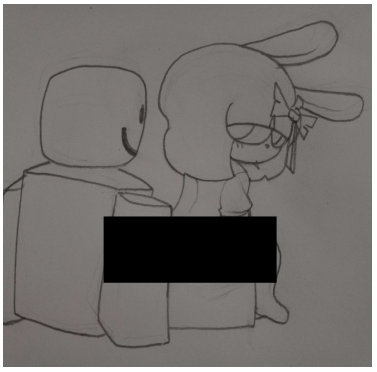
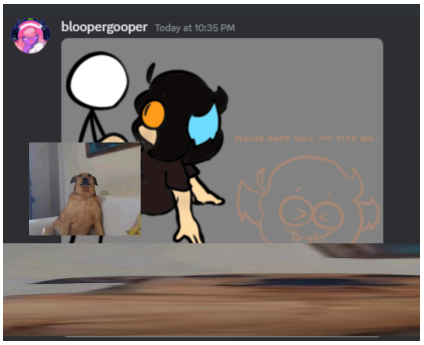
The following consists of stabuh… suggestive n full nsfw drawings:.







Wasted talent, honestly.

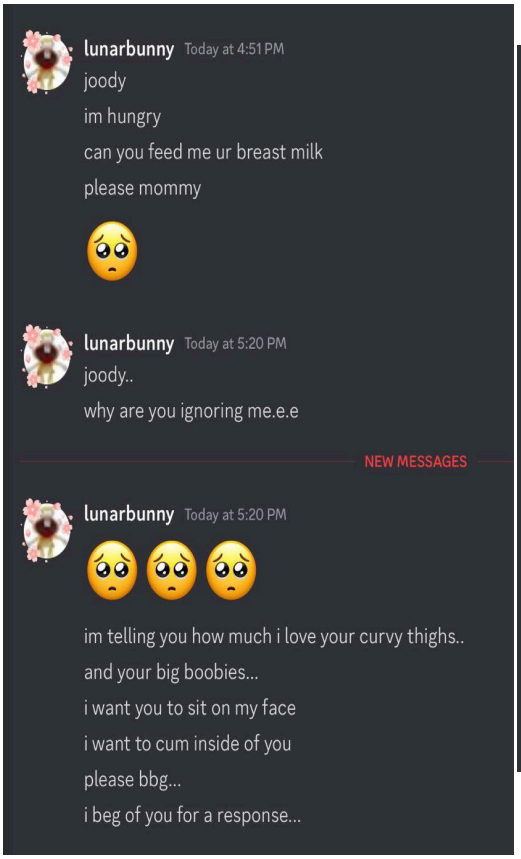
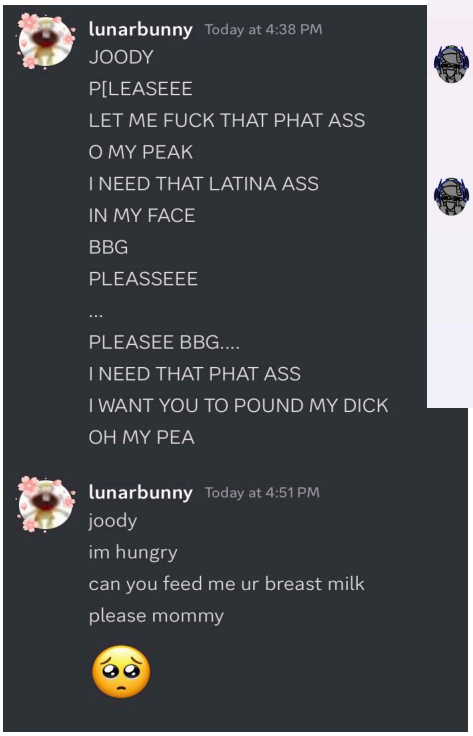
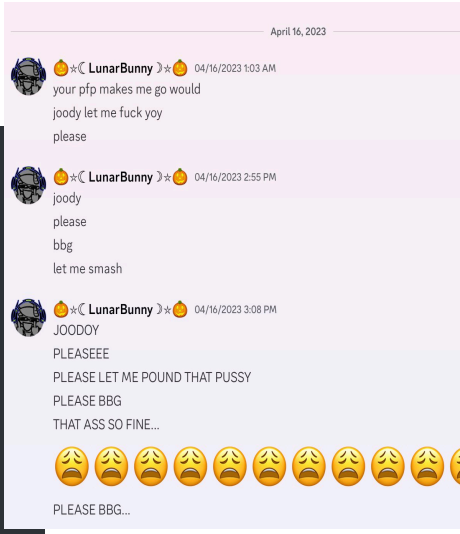
This is going to be Joody's own talking and experience with lunar/stabuh:

The moment back in 2021-2022 when I met lunar, I didn't know much about "Her" sure, she seemed to be nice but I remember when our first interaction in a group chat, me and my friend were joking about a certain thing about having a pillow body out of me. Then "She" stepped in and said "I'd sleep with it". I never felt so weirded out before.
After months of starting to get to know her better. She started becoming an asshole to ME, only ME, nobody else. I didn't get it that time. It was odd because I was 13, I was unaware of this random hatred towards me.
I still remember, Everytime "SHE" had an argument with a friend I used to help her out, I didn't know anything about her, I was doing it with pure intentions. I literally forgave her multiple times, In 2022
she harassed me in 2022 too, She kept saying such things
that I have a "Fatass" And "Big tits" She sexualized me too much. I was only 14. She kept always mentioning that I am "Hot" or "Sexy". It was so awfully uncomfortable. It wasn't even funny, She

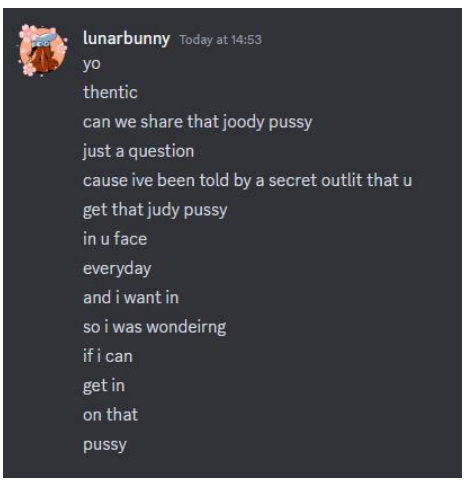
kept doing that ALOT. She even made rape jokes towards me, a lot of rape jokes, or that she will date me, and she kept objectifying me. 2023, and she, with one of my close friends STARTED dating, and I swear when I'm saying this, my FRIEND was blinded by love. EVEN when LUNAR mistreated her multiple times, She did not say much. But as soon as possible in February they broke up and I'm very thankful. (I Am not sure of the date, it was between January and February.) April 2023 came. She got kicked out of our group chat thankfully after her narcissistic behavior. Always denying what she did, or not taking anything seriously.
Everything was Alright. Until.







She started texting me like this, so uncomfortably and weirdly. She said "It was funny" but it isn't fun to harass a person. I did NOT respond to her due to this wild animal behavior. She kept DMing me multiple times and saying all of that bullshit.
She even mentioned me in her status saying this.



I rejected her MULTIPLE times around like 4-5 TIMES. Since 2022-2023 yet. She kept sexually harassing me, bothering me, and making a lot of BULLSHIT. I am not
even gonna bother, she even talked to my best friend Aka. Thentic, Telling him this.
Me and Thentic are just best friends, but her porn addiction has brainwashed her perspective on EVERYTHING in this world,

she literally sexualizes everyone, everything! Me and Thentic are known to be good best friends. There’s no
such romantic connection between us or anything, people just used to ship me and him as a “joke.” Thinking it’s funny when it isn't.
After we confronted her about all of this, she kept denying it and she was giving that kind of “idgaf” Energy, knowing it's so wrong + actual harassment.
I had enough of her that time, and I had managed to contact her parents along with 3 other users. Her parents seemed to be shocked at first, and they said they are gonna take care of that behavior and actions. But now that 2024, came. I don’t think it really helped, did it?
After I confronted this to her parents, she came to me full of hatred and tantrum. Saying I “Ruined” her life and that she got depression, anxiety, and other more Mental issues she got. Which is bullshit.
I blocked her after, everything was alright when fall 2023 started, until november came on. And I got news that she has drawn porn out of me. I couldn’t NOT believe what I’ve seen. I’ve seen porn out of my oc sexualized, with big boobs, and a stick man fucking my oc. I got so fed up with it. And I hated her. I never hated someone like this before. I blocked her before already, but I swear I had so many things to say, but I chose to ignore that time because I had other things to deal with in my life other than some immature failed science experiment.
Months have passed already and I’ve forgotten about what she did, so did everyone. She came back to me proudly saying “ I Drew porn out of you as a revenge from you for snitching on me to my parents about me sexually harassing you”. Honestly a condom that time would’ve not hurt. Miss and Mrs “Lunar” parents.

All Of This Was Because I Rejected Her, And Did Not Pay Attention To Her.

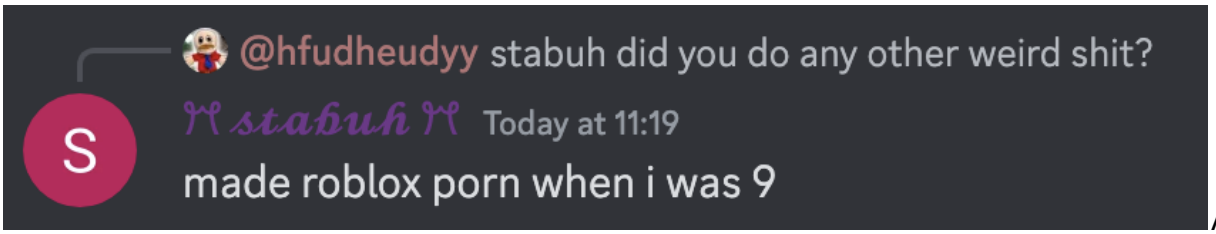
stabuh has confessed of drawing porn art out of joody and zero on their twitter, down below is a link for their apology document.

https://docs.google.com/document/d/1FDVzQrYfdq0-q9UGr356krW1doAv2Ae4pOx98YYuqIg/mobilebasic
^^
In this document, stabuh does a shitty apology towards those people he had hurt and uses HORRIBLE excuses to justify their actions.

and now, stabuh after getting confronted by countless people (myself included). Is using this



As an excuse, you can already see how horrible it is.
Here's a link to an account called Ross, providing a few screenshots shown earlier and a video of mine I had recorded between my conversation of stabuh.
Ross on X: "One of my friends had roblox porn made of them by stabuh, I'm going to go ask them if they still have their old acc added and see if they can dig it up... haven't talked to the guy since like 2020 so I need to find his dm...." / X

1sobbe on X: "idk if this gives a little context but I suppose this karl guy was meant to be added sooner to harass us or whatever in this group chat that obviously we left after settling things i guess these ppl are known for harassing others https://t.co/YwqcOEPNaQ" / X < This is when stabuh have harassed the user 1sobbe, this link provides more information about it.
The lunarbunny allegations - Documentos Google < this document provides more animations stabuh has done, some are sfw but some aren't. (and according to some contact of mine, stabuh has made this document themselves).

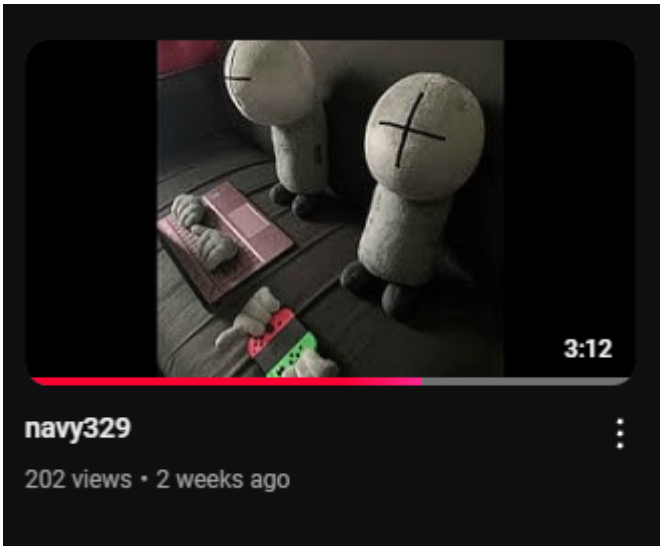
Over all, this is who stabuh really is. A porn addict (or gooner as yall new gens say) who could NOT keep things to himself and have done a few HORRIBLE things. Not to mention their own horrible excuses of doing said things, honestly for me they are a DISGUSTING and horrible person. And mind you all of this couldn't have happened if they controlled their own sexual urges and desires + kept most of them to themselves.

Mind you whoever is reading this, do not harass stabuh for this. Sure they did fucked up things but, this document is mostly to show what stabuh did and what they really are.

stabuh privated their account because of the harassment they had been receiving, please don't do this at all, sending gore to people is not excusable even if they have done something bad.
unless is a pedophile, then go full crazy on their asses lmfao

UPDATE: More information provided down below.
The next page down below was written with the help of a user, navy.

According to the previously mentioned user, said that Stabuh goes out her way to try to defame people and put a bad image on them and spread false allegations on them, such as for someone who's username is navy329



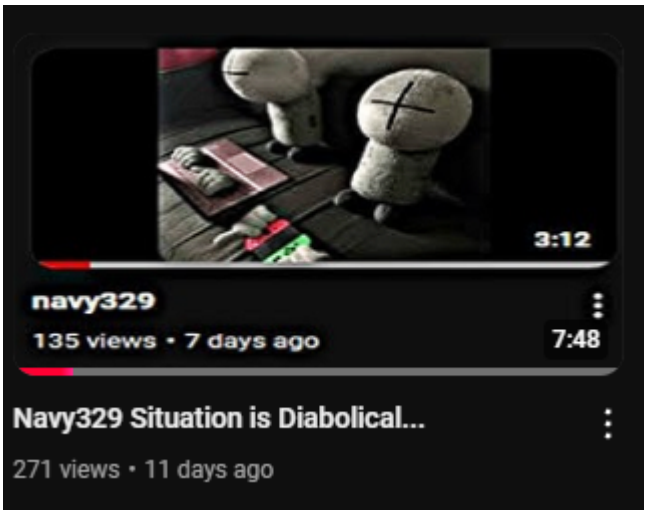
< videos made talking about Navy and someone called Angryneonlite. (who i do not have full context of their incident within stabuh).

She does this to "take herself and navy329" but she has never pointed out anything that she has done on the first video titled "navy329". In a short resume, the video itself just makes a poke at Navy for doing things that she had now deeply regretted and has gone to rehab which she also never mentioned. While navy constantly talks about her time in rehab and how it helped her become who she is currently. A document was provided to me and here it is: Where I been

In the videos stabuh has posted, he claims that navy solicited and pressured a 12 year old for nudes, but as this screenshot shows she didn't and it was all in consent. Screenshot provided down below.

Navys cousin, Angel, has made a response video about the situation and talked about how the entire situation that stabuh has thrown at them was completely false and later on provides actual screenshots of what actually happened.

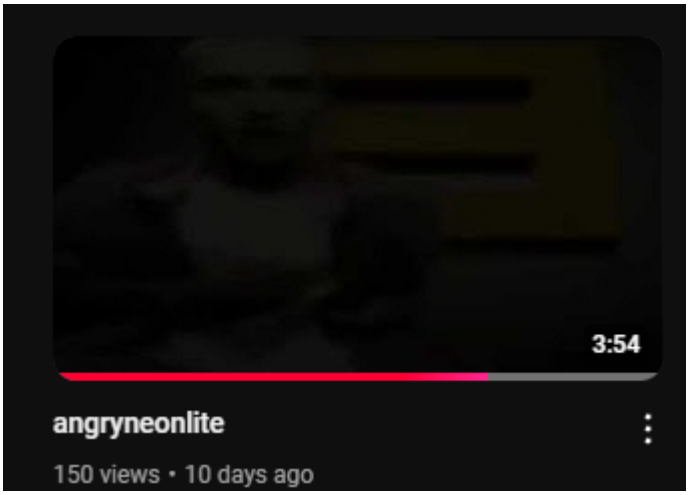
Navy329 Situation is Diabolical...



<< video angel made

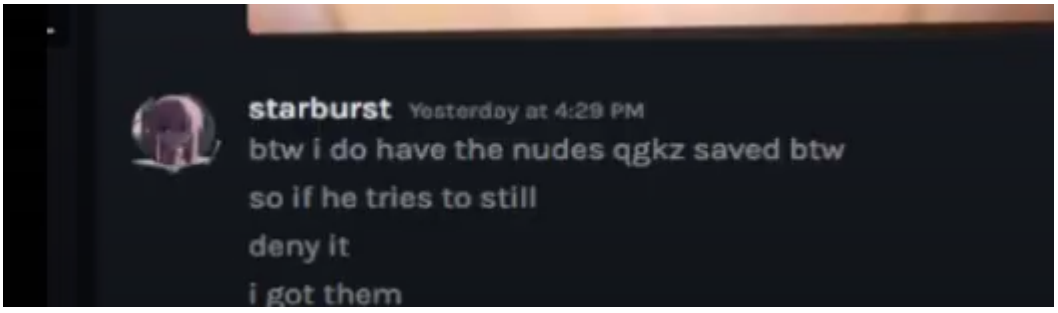
After that, stabuh decided to throw jabs at Angel in their dms, and tried to make a video on him, showing how much of an idiot angel is, while stabuh has said they had “proof” for everything, in which they tend to admit to what he has done in the past without any type of remorse. Response video provided down below.

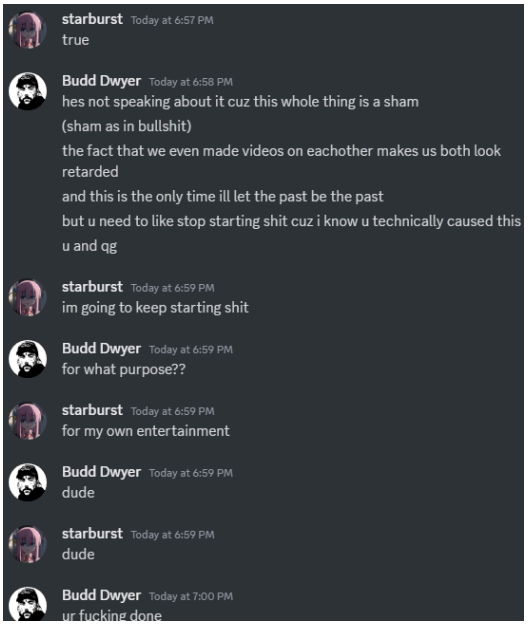
angryneonlite



<< response video

Angel manages to have a talk with Stabuh, in which they admitted to having supposed “child porn” saved and the “nudes” out of Navy’s ex. Screenshot provided down below.





—----------

Honestly, this just shows how much of a HYPOCRITE stabuh is, and how this weird FUCKING abomination of a human being doesnt give a single fuck or care about anything, while they try to clear their name or talk about the allegations without defending themselves at all, sending other people to defend him instead of himself taking action, take breaks off the internet and other shit, almost trying to always ignore their past and paint a new face on them, which honestly wont happen anymore.
idk stabhuhhhhh dumb message proof.mp4 << If you're curious, the whole convo can be seen in this video provided right next to that link, alongside a google drive link.

After those videos released Angel has been working on a hour long video which has been released as of typing, the video can be found in this video The Truth behind SML:RP Developer

DOWN BELOW, PLEASE. READ UNTIL THE LAST CURRENT PAGE.

There is what I suppose new information about something stabuh has done within their game, but i want you to read until the last current page of this document, it's important. (+ There is going to be some clarification with some of the information provided).

Previously, I've got information that Stabuh owned a game called slmrp, and that they did not pay the people who worked for it. But it turned out to be wrong, so i apologize for this incident and hope to clarify a fewwwww things.

FIRST of all: according to the self proclaimed ex-staff member of the game's moderation team, it was said that they did not receive any type of payment. Which turned out to be a lie, I won't be revealing their identity as I want to keep them anonymous. But the thing is:

The previously mentioned tonzerka was the one who made the breeding chamber so they could use it within their girlfriend, and was the ones who teleported the entire server at that moment to said chamber, stabuh had no involvement in the matter. Although, (it is kinda irresponsible on their part to fully put their own trust on someone they 100% fully know of), but still. I apologize for the misunderstanding

(if this even counts as one). I was told that stabuh had actually PAYED his staff members, at least once. Although i do not know if this is true, since i haven’t had screenshots provided out of it, but if it turns out to be true. I apologize once more for this, this was one mistake out of my own part.
